

22/00985/FUL – 75 Sytch Lane

No objections

22/00977/TTREE – 45 Copper Beech Drive

No objections. Preferably, we would like to see a replacement planted, either in the same location or nearby.

22/010181/TTREE – Car park, High Street

No objections to trees being removed, but we would like to see native trees planted as replacements to soften the hard outlines of walls

22/00972/FUL – 18 Clap Gate Grove

We have reservations about the proximity of the development to the main road of the estate, Millfields Way, given it is on the side elevation and represents a departure from the existing street scene. We are also concerned with how close to the boundary this extension would be also as there is a substantial hedge there and the necessary footings excavations would undoubtedly cause severe damage to the root structure.

22/00947/FUL – Botterham House, Botterham Lane

This is a heritage building that needs to be treated sensitively. We would like planners to treat this with the greatest care to ensure the building remains appropriate to its history and setting. That said, we have no objections with what is proposed, and have to acknowledge this is a working building that needs to be fit for the purpose.

22/00994/FUL – 51 Rennison Drive

No objections

22/01015/FUL – 3 Bridgewater Drive

No objections
