

Wombourne High School

REDS10 Newsletter December 2023

Dear Residents,

Hello again!

You are receiving Reds10's project newsletter for Wombourne High School, this is our second edition update for you on the progress of the project.

Temporary Building Project Update

As we approach Christmas break, there is a festive sense of enthusiasm and excitement within the team as we are all eager to take the next steps in to the project and move towards a successful hand over to the School Staff and Students in the new year.

Over the past few months, we at REDS10 have made tremendous progress on the fit-out stages of this project.

As we are fast approaching the handover of phase one, our focus is starting to shift towards the de-camp to the lower end of Ounsdale road to the new site set up activities for the readiness of phase two the demolition of the old school.

Recent Town Hall Community Meeting

We recently held a very successful Q&A meeting at the Wombourne town hall where we were made to feel very welcome, which allowed the wider community to gain a clear understanding of the highway procedures involved in phase two, that we will be following during the demolition and the build sequence of the new school. Our team are working diligently to ensure a smooth and efficient set up process for safe access and egress of site traffic along Ounsdale road and Wombourne without any disruption to the school, road users, neighbours, local community, and local businesses.

Finally

Reds10 are excited to be working alongside the Department for Education to create this fantastic new School here in Wombourne Creating a fantastic place for students to learn.

As part of our commitment to the Local Residents and the local community we will do a letter drop, and use the school social media, to try to update you every four weeks.

Phase two works prior to Demolition of the old section of the school adjacent to Ounsdale road is due to start February 2024, we will further update you in terms of what to expect in the next period.
